

JACKSTACK®

*The World's Fastest and Most Versatile Food Preparation,
Storage & Serving System.*

*From horizontal space-wasting...
to vertical space-saving!*

Lack of space has always been one of the major problems in any professional kitchen. The patented JACKSTACK® plate racks make it possible to stack plates, of any size, from 12 up to 104 plates.

One or two persons can easily move the vertical 104 plate tower in a minimum of time to storage or banquet area. Its 15 cm (6") diameter swivel wheels care for stability.

Clearing up with JACKSTACK® takes no time, 400 plates are taken to the dishwash department in one go.

The counter and wall models are particularly convenient in the small kitchens. The swivel top ensures that plates are always facing you.

JACKSTACK® provides you with the following drastic cuts in kitchen operating costs:

- **20% Less Labor !**
- **25% Less Serving Time !**
- **Plus ... 30% More Space !**

Different arm spacing allow covered and non covered dishes.
Combine different size dishes on the same JACKSTACK® !

The JACKSTACK® plate racks are all made up of a welded steel construction. The black electrostatic powder coating finish, which is scratch and rust resistant, is FDA and NSF approved.
The JACKSTACK® plate racks, when used properly, only need a regular washing, and no further particular maintenance.

One-year worldwide guarantee
on any manufacturing default.
